➤ Defining a new design system (and framework) that is simple to use now and easy to scale later

# Implementation of a design system with design documentation

- Defining a new design system (and framework) that is simple to use now and easy to scale later
- Advocation and adherence to a new shared design system (i.e. Google Material, etc.)
- Ensuring design updates are documented on any collaborative platform (i.e. Atlassian, Miro, etc.)

## Process for tracking design progress

Component: LWA
